

## Receiving personalized recommendations on WeTeachNYC

You must be logged in to use your WeTeachNYC Profile and set personalized recommendations. To login, click the link in the top right corner of any WeTeachNYC page and enter your NYCDOE or partner credentials.

After logging in, questions will appear on the homepage. Recommendations are broken out into classroom resources and professional learning resources.

The screenshot shows the WeTeachNYC homepage. At the top, there is a navigation bar with the WeTeachNYC logo, a search bar, and links for HELP, SUBMIT RESOURCES, and HELLO, JOHN SMITH. Below the navigation bar, there is a large search bar with the text "Search for lessons, professional learning resources, and more". Below the search bar, there are filters for POPULAR SEARCH TERMS (ESI-R, Videos, Danielson, Professional Learning), Grades (PK, K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12), Subject, and Educational Use. A blue arrow points to a modal window titled "Get personalized recommendations!". The modal window contains the text "Answer two questions to help us tailor your WeTeachNYC experience." and a question "What subjects are you interested in the most this year?". Below the question, there are nine checkboxes for subjects: English Language Arts, Mathematics, Science, Social Studies, AIS - Literacy, Arts, Computer Science, and Health and Physical Education. A green button labeled "Next: Grades" is at the bottom of the modal window.

Classroom resources are recommended based on grade and subject level preferences, while professional development resources are recommended in alignment with the Danielson Framework for Teaching.

These preferences are only used to recommend personalized resources on WeTeachNYC and are not shared with anyone.

To receive recommended classroom resources, you must answer questions about your subject and/or grade level interests.

For each question, click on items to select or deselect them. You may select more than one answer for each question. Once all of your interests are selected, click the green button to move on to the next question or to get recommendations.
