

Editing Discussions

To edit the title of a discussion, click on its title.

The screenshot shows the 'WeTeachNYC Sample Community' interface. On the left, there's a 'COMMUNITY GOAL' section with an 'EDIT' link. Below it is a 'NEXT STEPS' section with two sample links. The main area is titled 'Discussions'. A large blue arrow points to the 'Sample Discussion Title', with a smaller blue arrow pointing to the 'Edit Title' link below it. To the right of the title is a 'DELETE DISCUSSION' link with a large blue arrow pointing down to it. Below the title, there's a post by 'Acacia G.' with the text 'Here is my first prompt.' and a file upload 'Session 1 Deck.pdf'. At the bottom, there's a text input field with the placeholder 'Add reply or upload a file'.

You can edit the title, add and remove tags, or delete the whole discussion.

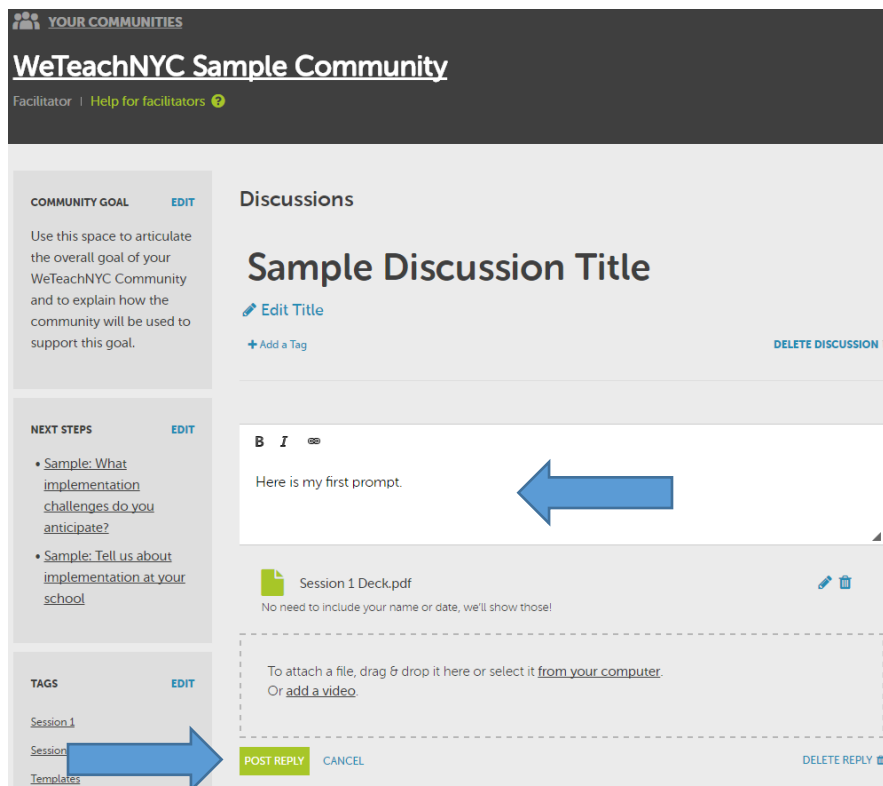

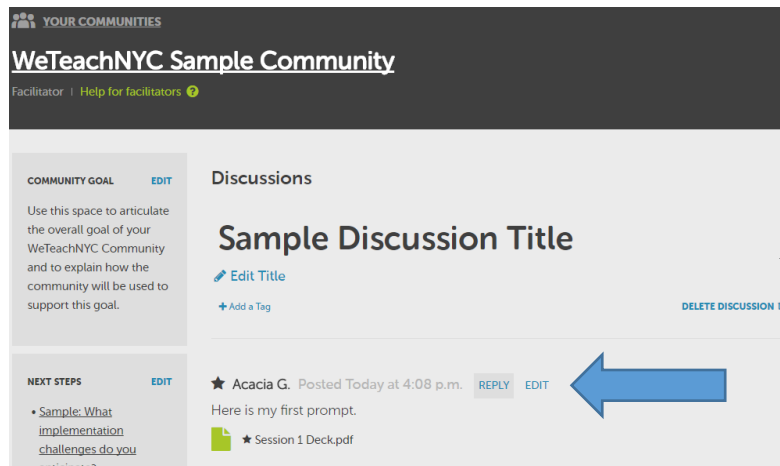

Facilitator Tip:

It is recommended that you carefully consider whether to delete discussions that other community members have replied to or added files or videos to, unless the content is inappropriate, as the response or resource may be valuable to community members.

All of your own replies can be edited or deleted.

To edit your own posts, click **'EDIT'**. The text box will activate so you can edit what you've written, attach new resources, and/or add videos. When you're done editing, click **'POST REPLY'**. If you change your mind, press **'CANCEL'**.

You cannot edit or delete replies made by community members or other facilitators. If you need to remove a reply because the content is inappropriate, please contact the Knowledge Sharing team.

Facilitator Tip:

To safeguard against the appearance of any inappropriate content, it is strongly recommended that you review community norms and expectations when you introduce the community to your community members.
